PROFILE INFO

I am a dedicated IT student with a passion for coding, design, innovation, and experimentation. I am an enthusiastic and social individual who enjoys taking on new challenges and continuously learning new skills. I value meeting new people, exchanging ideas, and sharing knowledge while fostering positivity.

EDUCATION

♦ BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

Laguna State Polytechnic University

NOTABLE PROJECTS

♦ PET HEALTH TRACKER

A mobile Application designed to help pet owners monitor and manage their pet's overall well being. It collects and organizes health-related data, to improve a pet's quality of life.

♦ DENTAL CLINIC MANAGEMENT SYSTEM

A web-based system designed to streamline and automate the daily operations of dental clinic. It integrates patient management, appointment scheduling and treatment tracking into a centralized platform, reducing manual work and improving efficiency.
